for Registrar General, India.

NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3 57% and 4 16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3 1/2% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

3 1/2%
TEN-YEAR TREASURY SAVINGS DEPOSITS

TODAY'S BEST INVESTMENT FOR SMALL SAVERS

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 18th October, 1952.

* In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

Explanation of symbols used :—B.—Births ; B.R.—Birth Rate ; C.—Cholera ; S.—Smallpox ; P.—Plague ; F.—Fever ; D.D.—Dysentery and Diarrhoea ; R.D.—Respiratory Diseases ; M.D.—Maternal Deaths ; D.R.—Death Rate ; I.D.—Infantile Deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in this statement for week ending the 18th October, 1952, relate to 182 towns with an estimated population of 24,877 thousands. The total number of towns is 281 and their population is 34,764 thousands. Thus 65% of the total number of towns representing 71% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 16,714 and 7,307 representing birth and death rates of 35·2 and 15·4 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 155 towns with an estimated population of 21,087 thousands. Information about Bihar and West Bengal could not be included. The total number of towns is 235 and their population is 29,570 thousands. Thus 66% of the total number of towns representing 71% of the total population is covered. The numbers of births and deaths recorded in these towns were 14,762 and 6,451

representing birth and death rates of 36·4 and 15·9 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 27 towns with an estimated population of 3,590 thousands. The total number of towns is 46 and their population is 5,194 thousands. Thus 59% of the total number of towns representing 69% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,952 and 856 representing birth and death rates of 28·3 and 12·4 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
